YOUR 24/7 EXPERT REMOTE DBA TEAM

IF YOU HAVE MADE THE STRATEGIC DECISION TO OUTSOURCE YOUR DATABASE ADMINISTRATION, THE NEXT STEP IS TO SELECT THE BEST FIT FOR YOUR ORGANIZATION. NOW WHOM SHOULD YOU TRUST?

WHY COMPANIES TRUST PYTHIAN

RECOGNIZED LEADER

We provide remote database administration services for Oracle, SQL Server and MySQL. For more than a decade, we've worked with multinational companies—such as Forbes.com, Fox Interactive Media, and MDS Inc.—to help manage their complex IT deployments all over the world.

EXPERTISE

Our teams, many of whom have earned the top designations in the industry, have extensive experience in enterprise-level databases. Providing top-to-bottom expertise – from forensics and architectural design to monitoring, migrations and tuning production environments – is a hallmark of our offering. We hire and retain the world's best.

GLOBAL REACH & SCALABILITY

We have one of the largest teams of dedicated DBAs in the world with offices in North America, Europe, and Asia Pacific. Our size, reach and methodologies allow us to effectively service your global deployments 24/7 at no extra cost.

When you work with the best in the field, *you can rest assured that you're taking the right approach, while dramatically reducing your risk posture.*

Work with Pythian and you have some of the best, most respected DBAs in the world at your service. We make it our business to stay current with best practices in areas such as security, performance, and storage; and in complex database strategies and technologies such as RAC, cloud computing and SQL high availability.

Keep your database infrastructure running efficiently

Do more with fewer resources

Help strengthen your internal team, while lowering costs

Strategically align IT with business goals
